Welcome to Our

We, the students, welcome you, our parents, to visit our alma mater. We hope that you will have a pleasant afternoon as you are visiting the various classes and departments.

Although our school is small, we are very proud of it and want you to be the same.

We want you to know our faculty and see for yourselves how each teacher conducts his many classes.

The library and office are often spoken of by the students. The library is a place where we all go to obtain books to stimulate our thinking or for books in which we may lose ourselves and relax our minds. The office is a place where we go to gain information concerning school. Sometimes this room is turned into a lecturing hall for those few who find it impossible not to talk when the teacher is out of the study hall. Now, parents, do not lift your eyebrows, because if all the pranks you relate of your school days are true—then this prank is very minor.

The Home Economics, Manual Training, and Agriculture departments invite you to visit them and see the work they are endeavoring to do to make better citizens of the students.

Miss Leslie, head of the Music Department, invites you to hear as well as see what she and the chorus are accomplishing.

Mr. Craig, our genial coach, and the two squads invite you to inspect and observe their practice periods. They will endeavor to show you how much hard practice it really takes to play the good games of basketball you come to see every Friday evening.

Mr. Wright, our superintendent, and Mr. Miller, our principal, and we of the student body wish to extend our thanks to you and hope you are pleased with what you have seen.

Halls and Lockers

Upon entering our school, we find ourselves on the street landing. Passing up one flight of stairs, we see the corridor which belongs primarily to the elementary grades. As the top step is reached, quite a group of students seems to be pouring into the building and going to their rooms. We are informed that the busses have arrived (these pupils are occupants). A little later some of them are promenading with their best pal and narrating the pleasures or troubles experienced since their last conversation. Soon the bell rings and all becomes quiet.

When the bell signifying lunchtime rings, we move along with the crowd to the lunchroom. While going through the lower hall, the open gymnasium door beckons. Just as we reach it, a group of effervescent youngsters burst out and immediately the hall seems flooded. With one accord we move on and as the waiting line is reached, many quips and retorts may be heard, such as, "Guess I beat you today." "That's all right! There's always plenty for those who sign up."

The bell rings and our visiting day is completed. At this time the assembly proves to be an interesting sight. Passing the hall lockers, we see a very perplexed student. What could be so wrong that it would cause such frowns? Let's listen a moment. "I know I hung my coat on my own hook and now it's gone." Another student, "Why tell me about it? I'm sure I didn't wear it anywhere." When the rest of the school has departed, the first student returns to the hall and notices an open locker door. Further examination here discloses her coat. Just a prank? Of course.

When the busses have gone, our loyal janitors begin sweeping the corridors. Thus our halls and lockers complete another active day.

OUR OFFICIALS

Mr. Wright's Editorial

One of the most significant items in Ohio History has been the emphasis on public education. The Ordinance of 1787, over 150 years ago, provided that, "religion, morality, and knowledge being necessary to good government and the happiness of mankind, schools and the means of education shall forever be encouraged." Following out the spirit of this ordinance, the people of the Tully-Convoy School District have faithfully and generously supported their school.

At first only the parents with pupils who attended school contributed to the support of schools, but the idea has always prevailed that schools of any kind are a decided asset to a community. So as early as 1821 the state legislature provided for townships to levy taxes on themselves for school purposes.

The Tully-Convoy School has a broad program of studies. The high school curriculum is well above standard. One aim of the administration is to establish the home economics department on a vocational basis, the same as the agriculture department.

The home economics department and cafeteria have been remodeled. New equipment and supplies have made it possible to care for a larger group of students.

The school is in need of additional equipment, especially in the science department. General science, biology, chemistry, and physics are being offered with good sized classes in all four of the sciences. It is planned to install modern equipment in the near future and thus make our science department the equal of the others.

I have enjoyed my work this year at Tully-Convoy very much and appreciate the cooperation of Mr. Shaffer, the local school board, faculty, and student body in making my first year a profitable one.

—Supt. W. M. Wright.

MISS LA VONNE FRY

Miss Fry was always willing to help
one when they needed aid. We very
much appreciate her service which she
rendered with a smile.

GREET YOU

Mr. Miller's Editorial

The current conditions in America show the critical need of teaching our youth to understand American life and its relations to the modern world. Our schools are confronted with the task of educating pupils to become informed, thinking citizens.

During the past number of years the rapid development of industrial civilization has produced problems of living together that even the adult minds find hard to probe.

It is of the utmost importance that schools do all they can to introduce to youth solutions of problems which have been met in the past and which they will have to face in the future.

The school cannot do all to meet these problems. The home and family play a very important part in shaping the minds of the boys and girls. The home is the first school for the child. It is the place where he is born and where his education begins—with the mother and father. If they cannot agree as to the way that the child is to be cared for, he becomes a ward of some one else.

There are many other important factors that play their part in educating the child. Among these might be mentioned Church, friends, neighborhood, radio, movies and others. Each has its part to play; therefore, all should work together if a good citizen is to be the result.

The Visitation theme carried out by this annual is a splendid thing to bring better understanding between groups of the community. Each can get much good from such a practice.

DEPART

You ask anyone what is the greatest asset to man: he will invariably answer good English and neat appearance.

Both these assets, as well as other essential qualities that make a man what he is, can be found in the various departments now offered by our public schools.

English comes first. What next? Some say history and some say mathematics: both are essential if we want to become successful citizens. History is important because it affords a background to the national and international, economic, political and social problems of today.

Mathematics is useful throughout the world of business and in the management of the home.

MENTS

Next comes the newly introduced Smith Hughs' work, which instructs the boys in better methods of farming, including soil conservation, animal husbandry, and farm mechanics. Closely related to Smith Hughs' work is home economics, which trains the girls in arts of cooking, sewing and other useful household tasks.

The sciences include biology, chemistry and physics, which not only explain the intricate make-up of our universe, but also give us certain useful facts which can be applied to our daily life.

In the business world today there are thousands of efficient secretaries, accountists and typists who receive the foundation of their training in our high schools.

Our musical department provides excellent training in both vocal and instrumental music. For some it is merely an outlet of their emotions, but for others it affords a firm foundation for further study and development.

And lastly, our physical education department not only trains our athletic teams but also furnishes an outlet for intra-mural athletics. It teaches us the value of play and recreation in our everyday school program and gives us an opportunity to develop our physical being.

So year after year our faculty sends out bigger and better citizens. However, to most young children education means very little except the learning of their A B C's. There are always a few who pick certain great men or women as examples and are ever striving to reach their goal, so that they too may someday leave their name at the top. I think Longfellow well expressed his idea in the following stanza of his poem "The Psalm of Life":

"Lives of great men all remind us
That we can make our lives sublime,
And departing leave behind us,
Foot prints in the sand of time."

CLASSIFICATION

Value of Classes

One of the primary motives of our parents in sending us to school is that we may be the recipients of more of the knowledge contained in books. We gain most of this knowledge from our most capable instructors in the classrooms. Through our classroom attainments our minds are developed and prepared for our other activities. Sometimes the thought is expressed, "I'd surely like school if it weren't for the classes." However, it is through these same classes that we are taught to appreciate the good times we have.

He is a worthy gentleman, exceedingly well read and profited in strange concealments.—Shakespeare.

M. J. T.

Mr. Riley, President; Mr. Hertz, Clerk; Mr. Muntzinger, Vice-president; Mr. Hilton; Mr. Mollenkopf.

BOARD OF EDUCATION

The Tully-Convoy School Board is composed of five men selected for a term of four years.

It is their duty to budget the necessary money to maintain a school of high standards. Tully-Convoy has become noted for its instruction and maintenance.

The policy of the school board is to give the community the best school possible, yet stay on a firm financial footing.

Mr. Tracy, the retiring president, served as a valuable member of the local board for eight years. Mr. Tracy gave liberally of his time and ability. He was not a candidate for re-election and in his place Mr. Bruce Mollenkopf was elected and assumed his office January 1, 1940. Mr. Hertz was re-elected at the same time.

In the reorganization Mr. Riley was unanimously elected president of the board. This will make Mr. Riley's fifth year as a member.

Mr. C. A. Muntzinger was elected Vice-President. This is Mr. Muntzinger's third year.

Mr. Hertz is serving his thirtieth year as a school board member; thirteen years of which have been on the local board. Mr. Hertz was re-elected clerk for a two year term. He is exacting and efficient in the handling of the business of the school board.

Mr. Hilton is the fifth member of the board. He is serving his fifth year.

Mr. W. M. Wright is serving his first year as superintendent and is ably assisted by Mr. Miller as principal.

Here's to the Seniors of the Tully-Convoy Schools. With great interest for twelve years we have watched your progress and development in school. Now you are about to go out into the world where you will be on your own. If you have learned the lessons of how to make friends and keep them, to participate in the worth-while activities in your community and to keep yourself informed on matters pertaining to the public good, your years spent in school will not have been in vain, but will have been most profitable.

C. L. Shaffer.

To all the schools and students in Van Wert County, Mr. Shaffer compels a certain respect as County Superintendent. However, to the Juniors and Seniors of Tully-Convoy High School he is much more than this because it was under his supervision that we began, to us, our most interesting school life. All through the following years we have felt that Mr. Shaffer had an especial interest in us because he started us.

Whenever Mr. Shaffer comes to our school, it has been our experience that he has something interesting to tell us. These facts are not something of momentary value but things which will add to our permanent knowledge in the future.

This is a small token of the appreciation we feel for the aid Mr. Shaffer has given us during our school career.

SENIOR CLASS HISTORY

Class Colors: Aqua and Peach

Class Flower: Sweet Pea

Class Motto: B □

In the late summer month of September, 1923, a riotous bunch of urchins approached the sacred recesses of Tully-Convoy Public School. Any person unfortunate enough to be standing along the wayside on that balmy morning received the impression that the world would be set afire by that group of future citizens.

With the aid of Miss Temple this group settled down to the most important task of life—educating themselves in order that they might attain a successful future. Their outstanding activities in the Eisteddfod during their first three years of school showed that they were really a remarkable class as a whole. Their teachers in the grades were the best that could possibly be desired. The general discipline of the class showed that they appreciated this fact. Their school days were going fast now, and they increased their speed until they added another flight of stairs to their climb for education. That was back in that good old seventh grade. There they began educating the upper-classmen in an interesting field—mischief. But it didn't take them long to adapt themselves to the environment of the older students.

Now they entered the most important four years of their life. They were known as "green" Freshmen. But don't misunderstand, this didn't break their morale. Talk about athletes, why Martin and Carrier were practically professionals then already. It was just a matter of time until they were varsity men. During this Freshman year the class elected Marlin Thomas, President, and he showed such leadership that they followed him through the rest of their high school career.

By now, future professions were beginning to shape up in their minds. Mr. Shaffer, their first superintendent, and Mr. Leiter, who succeeded him, always stressed the fact that a good foundation was the basic necessity for future success. The class soon realized that they were indebted to these men for their feelings. And now, Mr. Wright, who at once gained the appreciation of every student in the building, took over the helm of "The Ship of Learning" and is piloting them out of public instruction into the turbulent waters of self-education. At his side stands Mr. Miller, the class sponsor, who also was always ready to do anything for the betterment of the class and who is respected by every member.

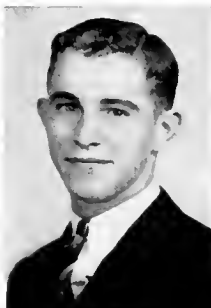

Now all this is past and experience is their only teacher. It is the sincere belief that this class, which was so remarkable as a whole, will succeed just as well as individuals.

SENIOR CLASS PROPHECY

124 Highland Park
New York, New York
June 29, 1952

Dear Mr. Wright:

We were very much disappointed that you were unable to be at the class reunion this year. All of the class were present except four. Esther Abbott is in India as a missionary and John Chavarria is in South America doing research work for the Akron Company. George Gasiday was unable to be there because of his air mail route, but as he went over the schoolhouse he dropped a note which said, "Hello everybody! Wish I were eating dinner with you." We were all surprised to hear that Junior Schaffner left last week on his "honeymoon" in Paris, France,—so, perhaps you may see him and his pretty bride before long.

It seemed good to be with the old classmates again. They're the same bunch, haven't changed a bit since 1940. Gloria Mustard, main telephone operator of Columbus, asked Marlin Thomas, master farmer of Ohio in 1951, how many batteries he had run down in his car in the last twelve years.

The manager of the New York Giants gave Robert "Stu" Martin, catcher, and Vernon Carrier, shortstop, a week's leave. We received some real inside information and I'll let you in on it, too. Stu says it's 3 to 1 the Giants will take the series this year.

Ruthella Konkle has accepted a position as first grade teacher and became acquainted with some of her pupils at the reunion.

You will not only enjoy listening but also seeing on your television set Ronald Reidenbach's Rainbow Rhythm Orchestra with Lois Schaberg as the singing star. This excellent program is sponsored by Stardust Cosmetics which is under the capable management of Virginia Eddy.

At noon we enjoyed a delicious dinner at Long's restaurant. Everyone showed their appreciation by helping Glenn and Virginia wash the dishes so that they could attend the program in the afternoon.

It certainly surprised me to learn that Roger Weck accepted the pastorate of the First Baptist Church in Cleveland. But it seems he is not the only preacher in our class; Verlin Feasby has been appointed to the Methodist Church in Phoenix, Arizona.

Jean Kever's picture "Homing" won the 1951 academy award. She and I are planning a trip abroad in the next few weeks providing my new song "Love in a Picture Frame" makes a hit.

I noticed Joan Burgo, one of New York's prominent models who specializes in wedding trousseaux, seemed to be giving Mary Jo Tracy and Eunice Grant some helpful suggestions. Mary Jo and Eunice, head bookkeepers in the State Treasurer's office in Ohio, have just returned from their month's vacation in Honolulu.

You'll surely want to read Mabel Carrier's book "Hints to the Back Seat Driver". It's a book everyone should read.

Bonnie Hart and Robert Glancy did not arrive until in the afternoon. Bonnie is supervisor of the Michael Riis Hospital in Chicago while Robert is a star reporter on the Chicago Herald.

Did you know that Arline Rager received a large sum of money from a great aunt? She has built a fine hotel in Convoy with marble floors and a gold fountain, complete with colored lights and everything. She has some experienced cooks from

the Netherland-Plaza Hotel in New York. You're right, they are Ruth Hullinger and Isabelle Reidenbach with Vivian Owens as the efficient dietitian, formerly of Mansfield, Ohio. Junior Wendel was the bell boy but has recently been appointed by the federal government to carry mail.

I think we have something in the U. S. A. that is not found in Europe. Daniel Friedly, professor of chemistry at Ohio State University, invented a little gadget so that as soon as you hit the hay, so to speak, it turns on the radio and the music plays you to sleep. The vibration of one's snoring turns off the radio and you have been put to sleep without thinking of all your worries.

Marcile Young is the capable governess of the John Roosevelt family. She gave us a few do's and don't's on how to raise children. I noticed Bill Mollenkopf, implement dealer in Van Wert, was listening very closely.

Please hurry back so you can see the picture "Love Sprouts Wings" starring Harriet Hall and Mickey Rooney. That's one picture you'll never forget.

Oh, yes, I almost forgot, Wilbur Farlow wasn't at the reunion. He left a month ago for the South Pole where he is setting up a grocery store in the new settlement.

The reunion was adjourned for another year when we are to meet at Arline's hotel. Marlin Thomas was nominated as president for the thirteenth time, Harriet Hall, vice-president, and Bill Mollenkopf as secretary-treasurer.

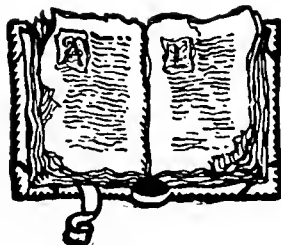

I hope, after reading this report of the 12th reunion of our class, you will feel that not all the efforts of the school faculty of 1940 were in vain.

Everyone thought of you during the day and wondered where you were at that particular time. I suppose you are enjoying every moment of your trip in Europe. And—while you are sight seeing, don't forget to look for Junior and his bride.

Sincerely yours,

Joyce Gardner

P.S.—Mr. Miller, our senior sponsor, was at the reunion. He is leaving next week for Pennsylvania, where he has accepted the position as Superintendent of the Philadelphia High Schools.

Clarence Young, President; Morgan Fortney, Vice-President; Patty Shovlin, Secretary-Treasurer; Miss Wolfe, Adviser.

JUNIOR CLASS HISTORY

Class Colors: Blue and Silver

Class Flower: Tulip

Class Motto: B² and be Y'S

Back in 1935 A. D. the seventh graders (now the Junior Class) felt very proud to be "upstairs". Miss Freck kept us going through the year. As eighth graders we were led by Miss Sattler, sponsor; Clarence Young, President; Jeanne Hoblet, Vice-President; and Dorothy Stephenson, Secretary-Treasurer. Will the day we spent at Trier's Park in Fort Wayne ever be forgotten?

Miss Wolfe became our sponsor when we started on our Freshman year and our officers were Clarence Young, President; Joan Shotts, Vice-President; and Glendene Van Landingham, Secretary-Treasurer. Our first party was the Initiation Party given by the Sophomores. Later we had a skating party at the YWCA which was enjoyed by everyone including those who spent part of the evening sprawled over the floor.

President Harold Rosendahl; Vice-President Mary Horine, Secretary-Treasurer Patty Shovlin, and our sponsor Miss Wolfe began to make plans for the initiation of the Freshmen when we became Sophomores. Again we had a skating party at the YWCA. But parties are certainly hard on the pocketbook, so we gave a bake sale which made us a nice sum.

Now we are Juniors. Clarence Young is again our President, Morgan Fortney our Vice-President and Patty Shovlin, our Secretary-Treasurer. Our class play, "Aunt Tillie Goes To Town", was a huge success. Our bank account is increasing rapidly with our candy sales and markets. Our parties this year included a skating party (we like to skate) and a wiener roast. The Junior-Senior Banquet was the main event of the year.

CLASS PROPHECY FOR THE CLASS OF '40 *and* '41

As I sit in my suite in a Chicago Hotel in 1960, I wonder what my classmates of the class of '41 from C. H. S. are doing. Suddenly I decide to consult my magic lamp which knows all. I chant the magic words.

"Abakadabra sabacadabrates
I wish to know of my classmates.
Are they alive or are they dead;
What do they do to earn their bread?"

Listen! The genie will start on the eastern coast.

In New York City is a distinguished young broker who has made good, Harold Rosendahl. He has a very comely secretary in his office. It looks like Annabelle Stemen, another C. H. S. graduate. Also in New York is Merle Cox, an agricultural agent. His chief interest in Vo.-Ag. was his corn and other farm products, and now he has put his knowledge to the test. In his office he has his old pal, Arnold Thornell, as his assistant.

It seems that Dorothy Stevenson is making her living by winning trophies and blue ribbons, but it is not on pigs. She has been proclaimed "Miss America 1960" (even at her age.) With her still, and acting as her personal agent, is Jean Hoblet.

Here's a treat for the graduates of 1941! Clarence Young, one of our OWN classmates, is running for the presidency this year.

In Philadelphia Glendene VanLandingham has made good as a society editor on the city's largest newspaper. Right at this moment she is giving due consideration to the "Lare twins", Mary and Martha, who are the guests of the socially prominent Miss Alice Poling of that city.

Joan Shotts has become a school teacher in a public school in Boston, Massachusetts. Morgan Fortney is the principal in the same school. In the main branch of Boston Public Libraries Maxine Schaffner is librarian.

In Birmingham, Alabama, Mary Horine has established an office where she writes the column, "Advice on Love and Marriage", for prominent newspapers. Her secretary, Patty Shovlin, is still single, but it is not her fault; it was some of Mary's advice that kept her so.

Robert Meyer has taken his father's veterinarian business over in Convoy. Ethel Mohr is a very efficient housewife of a local business man. His name is not disclosed. A large farm occupies all of Marvin Etzler's time. Although she is Mrs. now, Marcile Rager is still in the bakery business.

Lavon La Rue is a large wheat grower near Topeka, Kansas. The elevator with which he does most of his business is operated by Charles Cherry and Glenn Pate is a co-worker. Mary Helen Redlinger is the secretary in the elevator office.

Pauline Cox and Arbella Branstrator are managers in a very ritzy beauty shop in Portland, Oregon. Dale Hoover is in the same city at present with America's All-Star basketball players.

In San Francisco Betty Rager is up in the air. She is an aviatrix. Evelyn Myers has just passed an examination to be an air hostess.

In Hollywood Rosina Marsh is an entertainer at the Trocadero. Mary Hammond is a checkroom girl at the same place.

Suddenly realizing that this must be all the graduates of my class, I lean back to inhale some of the fresh lake breeze and soon I fall asleep to pleasant dreams.

—Margaret Thomas.

Class Motto: At the foot of the hill, but we are climbing.

We, as Sophomores of 1939-'40, are visiting 1940. Gliding back to review our visit with 1938-'39, we find we entered high school as Freshmen with a class enrollment of thirty-three. All went smoothly until October when we were initiated by the Sophomores. Afterward we glided smoothly under the supervision of Mr. Pickens and with the assistance of Dale Davis, President; Lenore Black, Vice-President; and Mary Catherine Wherry, Secretary-Treasurer. In March we had a skating party directed by Sonja Henie. Thus was our visit.

In September, 1939, we entered high school as Sophomores with a class enrollment of twenty-eight and directed by our sponsor and aided by our President, Billy Pancake; Vice-President, Betty Hoblet; and Secretary-Treasurer, Jane Swick. In early March we had a skating party and later we had a bake sale.

Richard Glass heads our class as President; Arlo Fortney, Vice-President; and Doris Weck, Secretary-Treasurer.

As a class we have participated in most of the school activities. We are represented in baseball and basketball. Freshman pupils take part in the FFA, G. R., Latin Club, and Freshman chorus.

Our parents have been of great help to us in these activities, both in their cooperation and attendance. We welcome our parents to our classrooms as well as to outside activities and know that they would be interested and pleased with our progress.

THE JANITORS

Long shall we remember our faithful and trustworthy janitors, Mr. Zimmerman and Mr. Mollenkopf. We owe a lot of deep appreciation to these men, who through the years of our school career have been willing to sacrifice their time and effort to accommodate us. When we were in the need of help, we merely had to submit our problem to them.

One cannot realize the hardships encountered by the janitors while in the course of duty and also when they extended their help in extra-curricular activities. Tasks came before them which required a great amount of patience and work.

We feel greatly indebted to the janitors, and we shall always remember them as two of the best friends we made while in school.

—Marlin Thomas.

ORGANIZATIONS

STAFF AND ADVISERS

We of the Bellerophon staff, together with our advisers, Mr. Miller, Miss Wolfe, and Miss Freck, have endeavored to present to you a cross-section of our school life through the publication of the current Bellerophon.

We sincerely hope that you will find our efforts a source of entertainment as well as place of authentic reference in the future when some question concerning the activities, social affairs, or departments of the school year 1939-40 comes up.

The 1940 annual staff is composed of members from every class in high school. They have worked together with much co-operation, and this year book is their accomplishment.

Each member on the annual staff had a certain task to do, and everyone did his task well. It is only with this co-operative spirit that any group can accomplish that which they set out to do.

It took effort on everyone's part to complete this, volume XVII of the Bellerophon, but now that we see their finished product we are proud of those who made it possible.

NEWS STAFF

Occasionally during the course of an ordinary school day, a notice would appear on the board stating that all members of the news staff should meet in a specified room at noon. When all were assembled, they would be given the deadline for news. In approximately a week the paper would be published, but during that week what scenes of activity could be found in various places over the building!

These papers, which were published four times during the year, contained editorials, news of the classes, including the lower six grades, bits of gossip gathered hither and yon, announcements of activities to come, jokes, and pictures. A copy of each issue was given to each family in the school.

We are quite proud of the work which our staff has done this year.

Regular meetings are held once a month, at which topics of interest to the boys are discussed. Speakers were obtained for some of the meetings to tell of some of their experiences. The boys enjoyed these very much.

Our officers are President, Marlin Thomas; Vice-President, Gloraine Bauer; and Secretary-Treasurer, Donald Bailey. Everyone purchased a Latin Club pin at the beginning of the year.

A program was planned for the entire year and monthly meetings were held. The programs were based on Roman life and Roman customs.

Probably the meeting we are the least apt to forget is the Christmas party, which everyone enjoyed because there were lots of toys in the Christmas exchange.

The Junior Classical League was made a success because of the untiring efforts of Miss Freck, our sponsor.

The FFA is an organization that was started in 1907 for boys studying vocational agriculture. It is an attempt on the boys' part to get together and do things in an organized way.

The purposes of this organization are to develop group leadership; to strengthen the boys' confidence in themselves and their work; to create a greater interest in intelligent farming; to improve their homes and their surroundings; to encourage cooperation, thrift, scholarship, and to create a love of nature among students of agriculture.

Some of the activities of an FFA student are keeping a thrift bank, hunting pests, judging livestock and grain, taking field trips and giving an annual banquet.

The Girls' Glee Club, which has been an active organization in our school for many years, was again organized to study good music. The number of members, composed of Sophomores, Juniors, and Seniors, exceeded that of other years. We had a great variety of talent which enabled us to have some very enjoyable times under the supervision of our music instructor, Miss Leslie. The rehearsal period was every Wednesday afternoon and on Friday afternoons we met with the Boys' Glee. Among our various works we have studied light choral compositions for girls' voices. Our public appearances were made in chapel, the Christmas program, and Farmers' Institute. We also took part in the Music Festival.

This year our Boys' Glee consisted of twenty-two boys who were interested in music. This club is for the upper three classes, Sophomores, Juniors, and Seniors, who have previously had training in Freshman Chorus. We meet every Monday afternoon at which time we practice songs selected by our conductor, Miss Leslie.

At Christmas we aided in giving the Cantata, "Childe Jesus". We also participated in the Farmers' Institute.

We are truly grateful for the ability, cooperation and work demonstrated by our accompanist, Georgianna Herl.

—Verlin Feasby.

Third Row: Charles Kilgore, Clarence Young, Carl Schaadt, Niles Fry, Dale Hoover, Ronald Reidenbach, Junior Wendel, Marlin Thomas, Charles Cherry, Robert Glancy, Robert Martin.

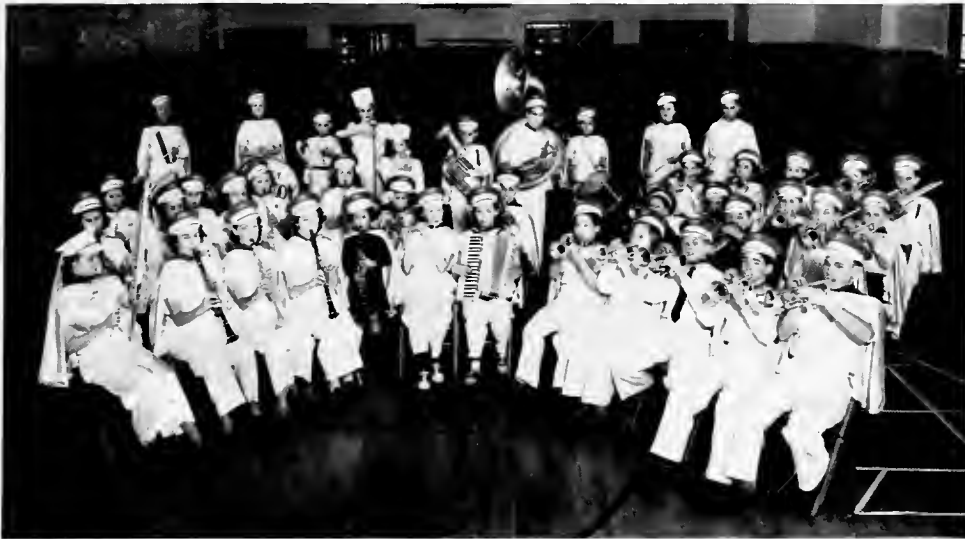

Our Mixed Chorus consisted of thirty-six members chosen from the upper three grades of high school. During the year we have sung on many programs, including chapel, Farmers' Institute, and the Christmas program when we gave the cantata "Childe Jesus." One of the most interesting events in which we participated was the Music Festival. Many of our members were chosen to sing in the Baccalaureate Chorus at the end of the year.

In January our group was privileged to attend a concert given at the Van Wert High School by the Oberlin Men's Glee Club. After their delightful program we had a better vision of what a musical education should mean to us.

Much of our success should be given to our accompanist, Mary Jo Tracy, who spent much of her time in helping us progress as we did. However, the most credit for our work and success belongs to our capable and understanding leader, Miss Leslie. Through her help and leadership we feel that we have grown musically, both in skill as performers and as appreciators of fine music. In years to come we all hope that the chorus shall mean as much to others as it has meant to us.

—Rosina Marsh.

MR. SICKAFUS

Mr. Sickafus is the director of our band. He spends one day each week with us.

This was truly a progressive year for our school band under the leadership of Mr. Sickafus. Although we lost several old members by graduation, several new members have entered the band. We found enjoyment in rehearsing on Friday afternoons for various public appearances. Some of the activities in which we took part were the Farmers' Institute, school plays, basketball games, Christmas program, and the Band Festival.

With the encouragement and generous financial support of the Band Mothers' Club, we have obtained a new supply of music. To improve the appearance of our band on parade this year we have five trained majorettes leading and directing us.

Each Senior member of the band joins with me in hoping that the Tully-Convoy Band will have many successful years in the future.

Row II—Joan Burgo, Pauline Cox.

Row III—Evelyn Meyers, Alice Poling, Virginia Long, Eunice Grant, Mary Jo Tracy.

MARY JO TRACY

Our captain, "Tracy"
with curly hair,
Is the type of a player
who is quite rare.

VIRGINIA LONG

"Ginny", a guard, who is
fast and small,
Made it hard for her op-
ponent to get the ball.

MABEL CARRIER

When "Fuzzey" is hitting,
it is just too sad,
For the opponents are go-
ing to get beaten bad.

JOAN BURGO

"Jody" didn't mind a lit-
tle spill or fall,
'Cause she had the "mus"
to get the ball.

PAULINE COX

"Twinney", another
guard, did her stuff,
She made her opponents
say "Quit" and
"Enough".

ROSINA MARSH

"Rose", who was always
smiling on the floor,
Was guarded by all of the

tall ones who didn't ask
for more.

JEAN THOMAS

"Jeanie" had the height
to stop a sure shot,
In other words, she was
one of our hot spots.

EUNICE GRANT

"Pinkie" got tossed around
a good bit,
But when she was hot,
she really could hit.

GLORIA MUSTARD

"Butch" had a lot of
curls,
She was one of the tall
girls.

ALICE POLING

"Shorty" made one-handed
push shots,
Which made the fans
"red hot".

MARGARET THOMAS

"Mergie" is always on
the run,
Until the last whistle or
gun.

Individual Basketball Players

Row I—Charles Cherry, Merle Cox, Dale Hoover, Junior Wendel.

VERNON CARRIER
"Eldridge", the Captain
of our team.
Plays basketball fast, fair
and clean.

JUNIOR WENDEL
"Windy" nearly always
got the tip.
When he came on the
floor, we let 'er rip.

ROBERT MARTIN
"Sto" was a player and a
very good one.
He was in there to fight
while the game was on.

BUD FRY
"Fry" had the system that
kept the fans hot.
Many games were won by
his long arched shots.

CHARLES CHERRY
"Cherry" kept up his
guarding end.
And broke up many push
shots as they started in.

GLENN LONG
"Hughey" was there when
he was supposed to be.

And helped the team on to
victory.

DALE HOOVER
"D. A." was a good
guard and held up the
rear.
He ought to be a first
stringer in another year.

MERLE COX
When we needed a substit-
ute for the guard box,
We were sure the Coach
would send in "Cox".

DONALD HOOVER

"Donnie", the guard with
the curly locks.
Helped win some games
that were on the rocks.

MORGAN FORTNEY

"Dugan" used his head
and feet
In handling his position—
win or defeat.

COACH AND CHEERLEADERS

MR. CRAIG

Coach Howard Craig came to us in 1937 and he has endeavored to raise our sportsmanship and cooperation standards. He has done a commendable job.

THE CHEERLEADERS

Much credit should be given to our cheerleaders, Pauline Poling and Junior Schaffner. They were always ready to give the team a rousing cheer, especially when it was needed. The cheerleaders did a very commendable job, even including Junior Schaffner's flustration while being introduced to cheerleaders of another school.

September 15

Convoy—2 Union—0

Convoy started the baseball season off with a bang by defeating Union 2 to 0. Martin and Carrier each collected two hits from Hoaglin. We were allowed seven hits while Fry held the Wildcats to three hits.

September 19

Convoy—7 Hoaglin-Jackson—6

This second game was a hard fought battle in which Convoy used both Fry and Bailey on the mound. From the ten hits, Convoy brought in four runs in the third inning, one in the sixth inning and two in the seventh. Martin's long drive deep into center field with two out won the game.

September 22

Convoy—7 Ohio City—0

Convoy earned an easy victory over the Warriors, who looked great in their new uniforms. Fry, on the mound, allowed four hits, while Convoy got eleven.

September 26

Convoy—5 Wren—1

Convoy forged ahead of the Eagles when Carrier hit a home run with the bases loaded. The Indians used four pitchers to hold Wren to three hits. Young and Carrier carried the hitting honors.

October 3

Convoy—15 Willshire—5

By defeating Willshire by this wide margin, Convoy was the only undefeated team in the county. Bailey, Thornell, and Fry held the Bearcats to four hits while Willshire allowed eleven. Another home run was hit by Carrier.

October 6

Convoy—11 Ridge—13

In spite of a poor second inning, in which Ridge got seven runs, we defeated the Tigers. Martin led the hitting. Thus, we finished the first half of our season, undefeated.

SYNOPSIS

Act one: Five o'clock on an afternoon late in January.

Act two: Scene 1: At dawn, the next morning.

Scene 2: Saturday afternoon two weeks later.

Act three: Scene 1: Ten o'clock on a morning three weeks later.

Scene 2: Six o'clock on a June evening some three months later.

Stephan Santry, an author, inherits a small farm in the Missouri Ozarks from an eccentric old uncle. Since Stephan is at his wits' end to know what to do with his family, who seem to have lost their grasp on the fundamentals of life, he hits upon the plan of taking them to the farm to live.

The family arrives thinking it is only a vacation. When they find out that they must stay there and Stephan says they must work if they eat, there is a rebellion.

Olive, the oldest daughter feigns sickness. Lynn Gray, a very capable country doctor, discovers the sham but announces that she has heart trouble and should remain in the country. She threatens to hitch-hike to Chicago. Mary Marshall, a neighbor girl who has come to visit the two youngsters, Billy and Phyllis, breaks out with scarlet fever and the whole family is quarantened.

During this time Doctor Gray becomes better acquainted with Olive who, she claims, she hates. Dick, who has taken on a wife, finds time too short to study farming.

Olive's real feelings are revealed when Doctor Gray's car plunged off a bridge near the Santry home. She nurses him back to health and their happiness is insured as they unite forces. Everything is settled to everyone's contentment.

Act One: Noon of a day in June.

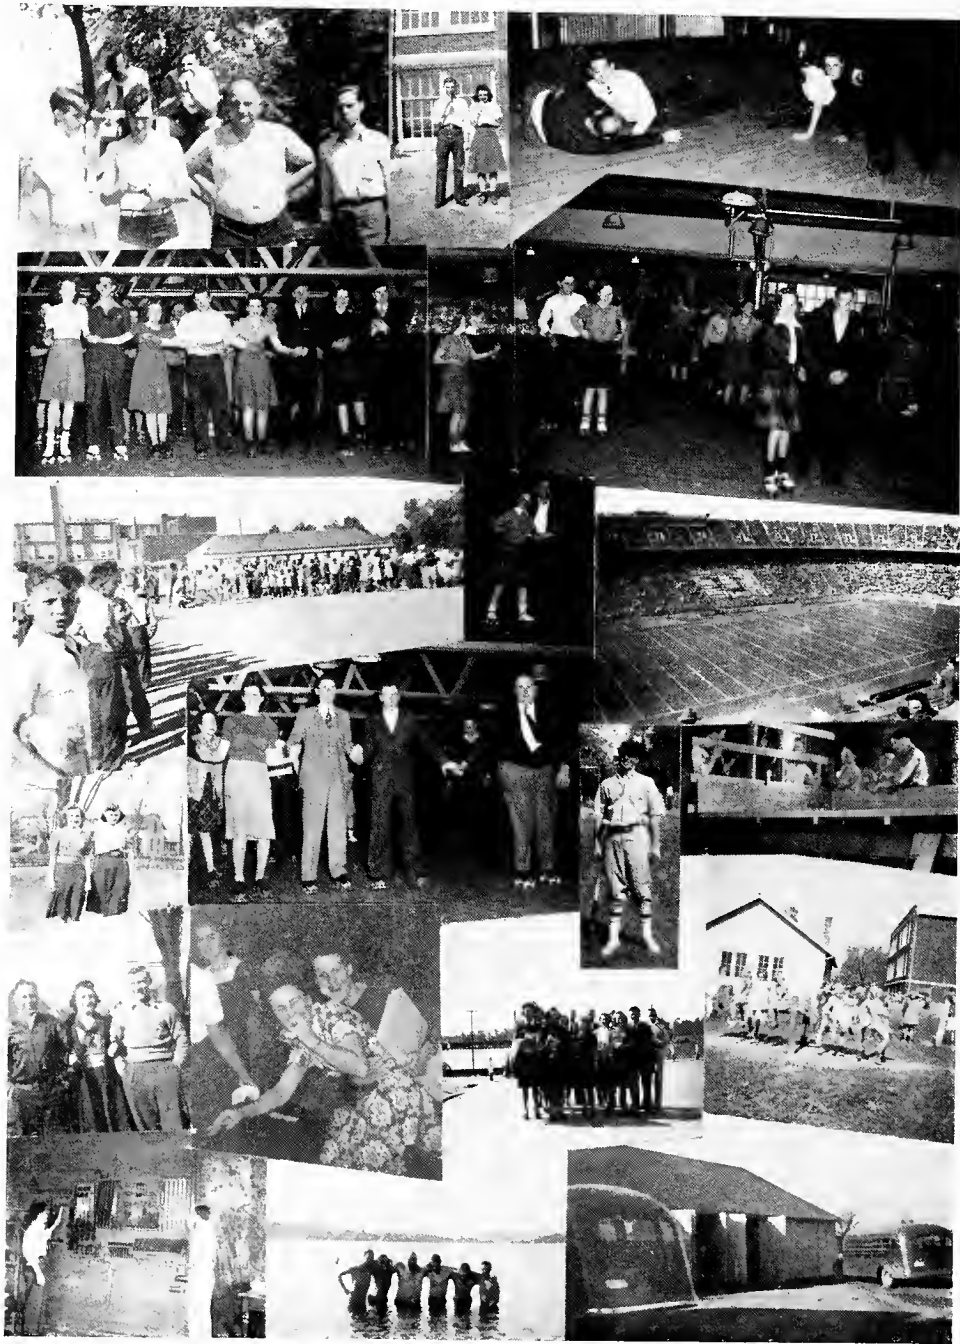

Act Two: A few minutes later.

Act Three: Late afternoon of the same day.

Story of the Play

Only one word adequately describes our play and that word is riotous. The situations in this play are sure to produce many laughs. Aunt Tillie Trask, an eccentric maiden lady, is occupying her country home near a smart Summer resort. She is upset because her niece, Pamela Marsh, has announced her intentions of marrying Mervin Tucker and spending part of their honeymoon at Aunt Tillie's. Aunt Tillie is summoned to town by her lawyer on an important matter. Meanwhile, Mervin Tucker arrives. He has wired his pal, Ronald Howland, who is nearby, to meet him. Mervin deposits his suitcase in the living room, and goes out. When departing for town, Aunt Tillie mistakes his suitcase for her own. This mistake furnishes many laughs throughout the play. However, in the end everything comes out right.

Facts You Should Know

At various times during the school term, skating parties are sponsored by the Seniors and the FFA as a general mixer for students, faculty, and parents. Here a genial and kindred spirit prevails, and each becomes better acquainted with the other.

All of the social activities throughout the year are shown by the calendar. Sometimes the students think they're dreadfully busy, and this will probably explain why.

We feel that we owe a lot to our predecessors, the Alumni, so we have gone into their lives quite extensively in this volume.

Our patrons have been quite considerate of us and our advertisements will furnish you with more "Facts you should know."
